

McConnelsville Village Downtown Flower Project

My name is Diane T Offenberger and I am working on the Downtown Flower Project for the purpose of providing beautification to the downtown area of McConnelsville, Ohio. The new flower bracket / baskets will be attached to the lamp post that line the streets of our village. Many of you have probably seen these flowers hanging from light post in surrounding towns and cities. I am initiating this project in hopes of receiving donations to complete this project before our bicentennial celebration on July 1st, 2017. The brackets/ baskets will have the cost of \$85.00 dollars each. The pricing includes the bracket, basket, potting soil, and flowers, and the brackets and baskets can be utilized from one year to the next. With your donation we will be posting a listing of all donors on the Village of McConnelsville website along with a plaque that will be displayed in the window of the Council Chambers located on Main Street. As donors you can memorialize, or dedicate your donation to someone special in your family or organization. I hope that you are convinced that this project will bring beauty to the downtown area yearly, and that you chose to be a financial participant in this project.

Please make checks payable to the Village Flower Project.

If dedicating or memorializing your donation please list the name you want listed on the plaque and a phone number if there may be any questions. Forms can also be download from the McConnelsville Village website.

Sincerely,

Diane T Offenberger
